Ultra/STX-R/ 12F/15F Race Bumpers

\$217.35

Introducing our simple yet effective race bumpers for the popular Kawasaki Ultra, STX-R, 12F and 15F model skis. Like our SX-R bumper kit these bumpers reduce the bond flange width enhancing the handling characteristics of your ski. Our bumper kit eliminates the need for excessive pop rivets with the peel and stick 3M adhesive. This is a nice way to enhance the appearance of your ride while improving the handling at the same time.
