## **TBM Racing Ultra Adjustable Steering System**

\$489.95

We are proud to introduce our first product for the incredible Kawasaki Ultra. Â We set out to build the ultimate offshore steering system incorporating several unique features to enhance the ergonomics of your Ultra. Â Our fully adjustable design features a dual tubular steering head for rigidity and function. Â Almost 2" of vertical adjustment and four handlebar positions allow you to truly tailor your cockpit to your personal preference. Â In the fully extended position with standard rise bars our off-shore steering is 4.5" taller than stock and the close course steering is 1.5" taller than stock. A we designed the bar clamps to acoch an acoch and the close course steering is 1.5" taller than stock. A we designed the bar clamps to acoch an acoch and the close course steering is 1.5" taller than stock and the close course steering is 1.5" taller than stock.
