## Handling Components

### **TBM Racing Super Scoop™ \$299.95**

Introducing the first intake grate designed exclusively for the SX-R 800. This is not another revised 750 SXI intake, it's designed to enhance the handling characteristics of the SX-R and correct its one inefficiency, which is keeping the pump hooked up [\[Product Details...\]](#)

### **SX-R 800 Rear Sponsons \$165.00**

TBM Racing's™ SXR 800 Rear Sponsons, which enhance the handling of this already dominant ski. Used at the 2003 World Finals by Tim Bushman and Factory Kawasaki, they have been widely accepted as one of the few bolt on handling components for the SXR that a [\[Product Details...\]](#)

### **TBM Racing Kawasaki SX-R 800 Signature Series Ride Plate - Race \$399.95**

After nearly 5 years of production we have finally found a way to enhance the performance of our premier SX-R ride plate by utilizing the triangular windows that Mike Klippenstein made famous on his TBM Hydrospace plate. [\[Product Details...\]](#)

### **TBM Racing SX-R / Hydrospace S4 Front Sponsons \$349.95**

Designed by a racer for racers to allow your ski to drive through a turn without inhibiting the natural lean angle the manufacturers intended and the precision a racer demands. [\[Product Details...\]](#)
