TBM Racing Kawasaki Ultra Timing Advance Cover

\$200.00

Quality, performance and value are the three words that come to mind when describing our Ultra Timing Advance Cover. Advance your timing up to 6 degrees to get arm wrenching torque out of your Kawasaki Ultra. Fine tune your timing from 0-6 degrees by simply loosening two socket head bolts and sliding the movable pick up mount to the desired degree of advance. This cover is constructed of 6061 billet aluminum and is a direct replacement for the OEM timing cover.
