TBM Kaw SX-R 800 Ceramic Driveline & Pump Bearings

\$355.00

Give your SX-R 800 the ultimate advantage by installing our Ceramic driveline and pump bearings. Low friction equals more horsepower by eliminating the drag associated with the cheap OEM roller bearings. These are a direct replacement bearing and are legal in the Stock, Limited and Open APBA and IJSBA classes. Our driveline and pump bearings are sold as a 3 piece kit.
